TESOURO SECURITY

INTEGRITY AND RESPONSIBLE CONDUCT

Business Ethics Code

Document status: Website publication template | Review cycle: Annual or following material change

1. Our standard

Tesouro Security expects business to be conducted lawfully, professionally and with integrity. This Code sets out baseline expectations for employees, contractors and business partners acting on our behalf.

2. Bribery and corruption

Bribery, kickbacks, facilitation payments and improper inducements are not acceptable. Gifts or hospitality must never be offered or accepted where they could improperly influence, or appear to influence, a business decision.

3. Conflicts of interest

Actual, potential or perceived conflicts of interest should be disclosed promptly so they can be assessed and managed appropriately. Personal interests should not improperly influence professional decisions.

4. Fair dealing

We aim to deal fairly with clients, suppliers, competitors and colleagues. Misrepresentation, deliberate concealment of material facts, misuse of confidential information and dishonest business practices are inconsistent with this Code.

5. Confidentiality and information

Confidential, commercially sensitive and personal information should be accessed only for legitimate purposes and protected against unauthorised disclosure, loss or misuse.

6. Respect at work

We expect respectful professional behaviour and do not tolerate harassment, intimidation, exploitation or unlawful discrimination. Concerns should be raised through appropriate management or reporting channels.

7. Health, safety and security

Personnel should follow applicable health, safety and security requirements, report hazards and incidents, and avoid conduct that creates unnecessary risk to colleagues, clients or the public.

8. Suppliers and third parties

We expect third parties working for or with Tesouro Security to maintain standards consistent with lawful and ethical business practice. Due diligence and contractual controls may be used where proportionate.

9. Reporting concerns

Suspected misconduct should be reported promptly to management or enquiries@tesourosecurity.co.uk. Good-faith concerns should be considered objectively and escalated where necessary.

10. Compliance and review

Breaches may result in corrective action, termination of engagement or referral to relevant authorities where appropriate. This Code should be reviewed periodically and updated as the business develops.
